Growing Together is excited to introduce you to The Lillio Program.

**What is Lillio?**

Lillio is a software program that allows our educators to communicate with parents throughout the day. Information regarding items such as nap times, meals, bathroom changes/tries and learning activities provided are recorded on each child’s profile and sent to parents. Lillio also provides parents with real-time email updates and access to a complete history of their child's experience in our programs with photos stored safely and securely in a journal format that parents can access from home or through mobile apps.

**What does this mean for me?**

Lillio will keep you informed by providing you with digital updates on your child to complement our important face-to-face interactions. It’s also a great way to reinforce your child’s in-program learning at home as you’ll have timely insight into what they've been working on throughout the day.

**Is there anything I have to do?**

Updates will be sent via email to the parents of each child. Please send back the bottom of this letter with you and your spouse’s email address at your earliest convenience so we can get your family started.

You will receive an invitation from Lillio in the next few days after we’ve received your email addresses. At this point you will want to create an account so you can access the history of your child’s activities and add your own milestones, in addition to receiving the updates from us. If you want to share these updates with additional family members, you can do so once you’ve created an account. The option to do this found under the “crew” tab. When adding “crew members”, please check off the second and/or third setting only. The first setting is for parents only. If you have any questions, please see the office.

If you’re interested in learning more, you can visit the Lillio website at [www.lillio.com](http://www.lillio.com).

Please continue to use our current methods of communicating (office email, GTFRC website and telephone) with the office or staff for things like absences, fees or scheduling questions, etc. The staff are busy in their program and may not return messages in a timely manner through the Lillio software.

Rebecca Dodman, GTFRC Director

Please cut and return to office.
